California to Receive \$34.5 Million to Fund AmeriCorps Programs

Funding will help AmeriCorps programs address community needs

SACRAMENTO, CA – CaliforniaVolunteers announced today that the Corporation for National and Community Service (CNCS) has awarded California more than \$33.2 million in competitive and formula grants to 57 projects that support the environment, educational and economic opportunities, and disaster assistance throughout the state.

CaliforniaVolunteers has also received nearly \$1.3 million to fund planning grants for 18 different programs. Planning grants provide one-year funding to design and develop new AmeriCorps programs that can address community problems and demonstrate significant impacts.

“This is a banner year for AmeriCorps in California,” said California’s Chief Service Officer, Karen Baker. “We will be putting nearly 4,000 AmeriCorps members to work making a difference in high-need communities, all while having a dynamic service experience.”

One of the many programs funded, City Year Sacramento, will be serving over 4,000 of Sacramento’s most vulnerable students. “By improving key drop out indicators, we are helping to keep more students on track to graduate high school on time and college and career ready,” said City Year Sacramento Executive Director Jeff Owen. “This work would not be possible without the incredible investment of CaliforniaVolunteers.”

Since 1994, more than 120,000 California residents have served more than 150 million hours and have earned more than \$360 million in education scholarships. CaliforniaVolunteers oversees AmeriCorps programs that engage nearly 4,000 AmeriCorps members who serve through nonprofit, faith-based, and local government at nearly 900 locations across the State of California. They are part of the nearly 8,000 AmeriCorps members who serve throughout the state.

“AmeriCorps members make a powerful impact on the toughest challenges facing our nation,” said Wendy Spencer, CEO of the Corporation for National and Community Service, the federal agency that administers AmeriCorps. “Building on California’s strong tradition of neighbor helping neighbor, AmeriCorps members will improve lives and strengthen communities across the state. As they serve others, AmeriCorps members will also expand opportunity for themselves - gaining skills and experience to jumpstart their careers. We

congratulate all the California organizations who received funding this year, and thank all AmeriCorps members for their service.”

A complete list of the 57 California programs that were awarded AmeriCorps competitive and formula grants can be found below:

Program Name	Legal Applicant City	Focus Area	Grant Amount	Grant Type
ACE Trails Enhancement	Santa Cruz	Environmental Stewardship	\$417,101	Competitive, Continuation
