

Questions and Answers

Week of December 4, 2023

Q: Will my campus be awarded 100 percent of the slots requested?

Based on the available funding each selected application will be considered for at least the minimum slots as described on **Table 2: Applicant Type Options** on page 10 of the RFA.

If an applicant is interested in additional slots above the minimum, please request the additional slots in your application. We will award additional requested slots based on the total application score, slot availability, strength of the application showing capacity to enroll and manage additional slots, and past performance based on Cohort 2 fellow enrollment percentage equal to or above the average. The enrollment percentage is based on the total number of slots awarded to the legal applicant.

If a returning campus requests a lower slot amount than the minimum, the applicant must make a justification for the lower slot request.
